

TRAVELING SMILES

Sponsored by Premier Health Upper Valley Medical Center

We're back in Miami County schools for the 2020-2021 school year!

We provide dental exams, cleanings, x-rays, and fillings to those that do not have a regular dentist. We accept state funded insurances and private insurance. We also see patients who are uninsured.

Our priority is to keep students safe during these times, while helping your children maintain proper oral hygiene and promoting positive, lifelong oral health practices.

To schedule your appointment, or for more details on when Traveling Smiles will be in your school district, please call:
